

## ADMIRAL ROJESTVENSKY IS ACQUITTED

Four of His Officers are  
However Condemned  
to Death

CAZAR MAY SAVE THEIR LIVES

AS COURT MARTIAL RECOMMENDS  
MERCY OF NICHOLAS

Owing to Extenuating Circumstances  
—Asks for Dismissal of Four  
Men from Service.

Kronstadt, Russia, July 10.—The court martial which heard the charges against Admiral Rojestvensky and other officers of the torpedo boat Bedovi in connection with the surrender of the boat to the Japanese in the battle of the Sea of Japan, returned a verdict today, acquitting Rojestvensky and all but four of the officers, who were brought to trial. These officers were found guilty of surrendering with premeditation and were condemned to death. The court martial recommended the men to the mercy of the Czar, owing to the extenuating circumstances, with a request that the verdict be commuted to dismissal from the service.

Rojestvensky was acquitted today after the court martial had deliberated nearly 10 hours.

After Rojestvensky's flagship had been disabled in the great battle between the Russian and Japanese fleets, the admiral, wounded and incapacitated, was taken aboard the Bedovi. An attempt was made to escape, but when the Bedovi was overhauled it was surrendered without resistance by the officers, who did not wish to further endanger the life of their stricken commander-in-chief. Rojestvensky was taken to Japan and there nursed back to health before being sent to Russia after the war was over.

Rojestvensky, at the court martial hearing, offered a plea of guilty, thus presenting himself as a sacrifice for the other officers, as he believed the love of his officers for him had prompted them to surrender the Bedovi to save his life. In a statement to the court he took all the blame on himself and asked that he alone be punished to the full extent of the law. In addition to Rojestvensky members of his staff, who had accompanied him on board the Bedovi as well as the chief officers of the torpedo boat, were brought to trial. All the officers except the commander-in-chief pleaded not guilty. Evidence produced at the hearing showed that Rojestvensky was in such condition at the time of the surrender that he could have had nothing to do with it and the verdict of acquittal was rendered despite his plea of guilty.

## APPOINTMENTS OF THE PRESIDENT

Oyster Bay, N. Y., July 10.—If the surmises of the authorities are correct, Jack Sweet of Grub Gulch in Madeira county held up the five Yosemite stages. A report is that he is under arrest on the charge and that he has been taken to Wawona for identification. Sweet is suspected of having held up the Yosemite stage one year ago. ## LICENSE TAG

Of a Chicago Dog Found in a Can of  
Pressed Meat Shipped to  
Virginia.

Chicago, July 10.—The mysterious disappearance of a Chicago dog whose license number was 13,506, has been solved, but the identity of the owner, despite widespread inquiry by reporters, remains a subject of doubt. The dog may have met an inglorious finish in a can of pressed food shipped out from Chicago. The can has been found at Roxbury, Va., according to a telegram from that place, and while the dog itself was not identified at all, its metallic license tag was intact and bore the words:

"No. 13,506, Chicago—R. F. C."

According to municipal records this number has been worn by more than 20 canines. Some of the dogs are alive and kicking, others are gone, the neighbors know not where, and it may have been one of these that finally landed down in Virginia.

Mr. Vernon, July 10—Dr. Abram T. Fulton, brother of Messrs. T. B. and W. D. Fulton of Newark, has commenced suit against the J. S. McConnell Wool company, asking for damages in the sum of \$10,300, as a result of injuries which he sustained by falling through an elevator shaft at the McConnell Wool company's building on July 8, 1902. The plaintiff avers that the defendants permitted an elevator shaft to remain open in their building, the said shaft running from the first floor to the basement. The bottom of the shaft was concrete. The plaintiff alleges that the defendants permitted the hole to be open.

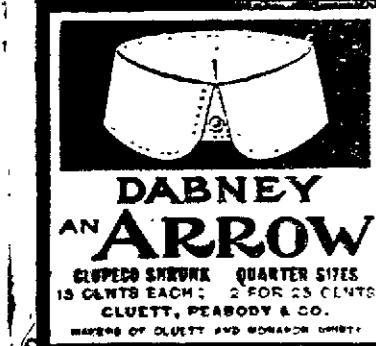

The plaintiff states that on July 8, 1902, he fell down the shaft with the result that he sustained a fracture of the left forearm. The plaintiff alleges that for three months he was incapacitated; that ever since the accident he has been lame and that the bones of his knee and arm have become stiffened and that he has lost the use of the same. The plaintiff says that nursing and doctoring at the time of the accident cost him \$300 and as a result of the injuries he has been damaged to the extent of \$10,000.

## NEARLY DROWNED IN BUCKEYE LAKE

ROBERTS RESCUED DAUBERT WHO HAD FALLEN INTO THE WATER.

Victim Was Unconscious From Striking Rocks—He Was Later Taken to Columbus.

Columbus, July 10—Matt Roberts, deputy clerk in the office of the justices of the peace, was a real hero Sunday. He rescued C. A. Daubert, of 402 Germania street, from a watery grave.

Mr. Roberts had gone to Black Diamond along Buckeye Lake, to spend Sunday. Mr. Daubert was fishing along the bank, which was quite steep at that place and covered with a rip-rap of round stones.

The rain of Saturday night had caused some of these stones to become loose, and when Daubert stepped upon one of them, it rolled, hurling the fisherman with great violence on to the rocks, from which place his body shot down into deep water.

Daubert had been rendered unconscious and had not Roberts sprung into the water and seized him, the man would have drowned.

S. A. Dean and Grocery Manager of Columbus were near by and helped Roberts get Daubert ashore.

The man was attended to by Dr. Morgan and later brought to Columbus.

There is more Catarrh in this section of the country than all other diseases put together, and hence the last few years was supposed to be incurable. For a great many years doctors pronounced it incurable, and either gave remedies and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful, according to the size and delicate surface of the system. They offer One Hundred Dollars for any case it fails to cure. Construes Law.

The supreme court has sustained the opinion rendered by Attorney General Ellis construing the Williams law extending the terms of county commissioners.

Under the decision, a county commissioner will be elected this fall and will take his seat the third Monday in September. The term of only one commissioner is extended, namely, that of the commissioner whose term expires in September, 1908, and it is extended until September, 1909.

In 1908 three commissioners will be elected, to take hold in 1909, and serve until 1911. The constitutional amendment fixing the term of the commissioners at two years, and requiring that an entirely new board shall be elected biennially, will therefore not go into effect fully until 1908. The court also decided that that part of the law requiring the terms to begin in December, instead of September, could not be put into effect.

## A GRAVE SIN OF OMISSION.

(Cleveland Plain Dealer)

The conspicuous sin of omission on the part of the late session of congress was the failure to enact the promised law forbidding contributions to political committees by such institutions as fall within national jurisdiction. When President Roosevelt said in his message that "all contributions by corporations to any political committees should be forbidden by law," he pointed out a reform long desired and the necessity of which his own unpleasant experience during the campaign of 1904 must have made him feel most keenly. In two formal messages he advocated the passage of a bill to this end. Such a bill was introduced and passed by the senate, but the house, supposed until last winter to be the branch most quickly responsive to the popular demand, allowed the bill to be sidetracked and then put to death by suffocation. The President did not see fit to urge action by the house, which could have been secured by the briefest kind of a special message, while nothing, of course, was expected of Speaker Cannon and the stand pat house oligarchy who have found "fat frying" campaigns so profitable, and were evidently dis-

posed to bid for one more big fund from corporations, to be used in carrying the next house.

Had this bill been allowed to emerge from committee no voice or vote would have been recorded against it. No man would have dared to oppose a measure which can be objected to only on the ground that boddle has become an indispensable factor in our elections. Nobody believes that the swollen campaign funds of the past ten years were either necessary or legitimate, and everybody knows that as long as corporations are permitted to supply the sinews of political war, our polities will be neither free nor honorable. Most of those contributions imply a contract beginning "for value to be received," and are to all intents and purposes merely the price of goods for future delivery.

The only way to beat such a bill to have it "lost in the shuffle," and this was done by Speaker Cannon and his satellites and without calling forth protest or rebuke from the White House. No purpose could have been more plainly advertised and no pious fraud more clearly disclosed.

**BIG PEACH CROP IN DELAWARE STATE**

New York, July 10.—The Delaware peach crop, which will begin moving to New York and other markets this week, will, according to Isaac V. Mills, the peach sharp, who has been making estimates of the crop of Delaware for nearly half a century, be 200 per cent greater than that of last year, and 100 per cent larger than any crop produced in that state for the past decade. Mills is employed by the Pennsylvania railroad to make these estimates that the road may provide for the transportation of the crop. He places the peach crop this year at 2,500,000 baskets, and the pear crop at 490,253 baskets. The great increase in the peach yield is attributed largely to the fact that spraying the trees has prevented disease among them and thus increased their yield.

Mr. Krebs, whose place Mr. Schroeder takes, will leave soon to accept a splendid position with the St. Louis Car Company.

## FIREWORKS IN APRON EXPLODED

MISS SANFORD STARTED TO RUN BUT WAS CAUGHT AND SAVED.

J. D. THARP HAS EXPERIENCE WITH A RUNAWAY MULE—SUMMIT STATION BUDGET.

Summit Station, C., July 10.—Florence Sanford had an exciting experience the Fourth. She had some fireworks in her apron pocket and by some unknown means an explosion occurred, burning out her pocket and a portion of her dress. She started to run but was caught and the fire extinguished.

J. D. Tharp had quite an experience while returning from work last week. The mule which he was riding was suddenly seized with a run-away insanity fit and started at a 2:15 gait, jumped the railway ditch, then into Harrison street, the speed gradually increasing. As Mr. Tharp passed his residence he said, "Good bye, Flora, take care of the kids, flying through space on a mule gives me a contented feeling. I die happy." The mule finally ran down, the machinery stopped and the rider toppled off. His experience had been the most thrilling of any incident east of the Rocky Mountains during the past 27 years.

Mrs. J. W. Murphy and daughter of Akron, spent the Fourth with Mrs. Murphy's parents, Mr. and Mrs. John Salts and family.

Mrs. Edith Blaney and children have been spending a few days with Mrs. Blaney's grandparents, Alonzo Marland and family.

The Fourth passed off without any accidents, but if reports are true the lid was off the entire day and night.

The condition of Mrs. I. R. Tharp remains about the same.

William Axline and family of Columbus, are spending this week with J. L. and D. D. Axline on Licking Valley road.

Mrs. Emma Fadley and children of Columbus, were Sunday guests of her parents, Mr. and Mrs. John Cashdollar.

C. M. Beals and family were visiting Charles Corey and family Sunday.

The heavy rain Sabbath evening flooded the cellars at this place.

T. B. Myers of Columbus spent Sunday in Summit and vicinity.

Samuel Greenwood and family of Jersey were at Wm. Greenwood's on Sunday.

Bernice and Olive Holcomb spent last week with their sister, Mrs. Stewart McNaughten and family at Reynoldsburg.

Mrs. Reed Johnson and daughter returned home Sunday evening, accompanied by Mrs. Johnston's parents, Mr. and Mrs. Lee Iden.

Miss Bertha Cashdollar of Columbus spent the Fourth with her grandparents, Mr. and Mrs. John Cashdollar. It has been ten years since Bertha saw her grandparents and Brother John.

County Assessor Waylaid.

J. W. Coulter, of Leslie, S. D., Assessor of Stanley county, relates the following: "I was waylaid by a complication of throat and lung troubles, bronchitis, asthma and a terrible cough, which had affected me for years, when I was persuaded to try Dr. King's New Discovery. Relief came almost immediately, and in a short time a permanent cure resulted." No other medicine compares with it as a sure and quick cure for coughs and colds. It cures after all other remedies have failed. Every bottle guaranteed at Hall's drug store Price 50c and \$1. Trial bottle free.

**TWO BIG OVENS BAKE 8000 LOAVES DAILY IN NEWARK**

The Weiant branch of the National Biscuit company, located in Newark, of which Mr. Warren S. Weiant is manager, will soon be equipped with two monster new ovens, capable of baking about 4,000 loaves of bread each, per day.

The work of tearing out the old ovens has been begun, and is being rapidly pushed. The work is being done by the Peterson Oven company, and at present is being superintended by Mr. C. H. Crombie, of the National Biscuit company's headquarters in Chicago. Later a man will be sent here by the Peterson company who will relieve Mr. Crombie.

A portable oven has been installed by Mr. Crombie, which will take care of the baking of cakes, while for a week or ten days the supply of bread will be furnished from the plants of the company at Zanesville and Columbus.

A big force of men are now engaged in tearing out the old ovens.

**WASHING WITHOUT WATER**

**IS LIKE TRYING TO GET RID OF DANDRUFF WITHOUT HERPICIDE.**

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with cantharides, vaseline, glycerine and similar substances which form the principal ingredients of most so-called hair tonics.

Newbro's Herpicide is successful because it attacks and kills the parasitic germs which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send us in stamps for sample to The Herpicide Co.

## NEVER BEFORE IN NAVAL ANNALS

HAS SUCH A FEAT AS THIS BEEN ACCOMPLISHED IN THE WORLD.

Dewey Costing \$1,124,000 is 500 Feet Long—Taken Half Way Around World.

Washington, July 10.—Officials of the navy department are greatly pleased over the safe arrival of the drydock Dewey at Olongapo, P. I. yesterday. When it was first proposed that this immense steel structure be towed half way around the world many wise old seadogs shook their heads and predicted that the expedition would meet with disaster. The trip was marked by several mishaps, but none so serious as to damage the big craft. The expedition started from Chesapeake Bay December 28. One hundred and ninety-six days were occupied in the trip. Commander Hosley is being warmly praised for his achievement. Never before in the naval annals of the world has such a feat been attempted. It shows again where America leads. The Dewey cost \$1,124,000, is 500 feet in length and is capable of docking the largest United States battleship in four hours.

### THE GRIM REAPER

**CROCO CRAWFORD.** Paid By Liquor Men—Alkin Law Figures Based on the Assessor's Reports.

Columbus, July 10.—Auditor of State Githbert gives out the report on the number of saloons in the state that have paid the Alkin tax for the first six months, showing the total to be 19,010 as compared with 12,550 for the same period last year. The per cent of decrease is 20.24, but the total amount realized will be \$10,010,000, against a total of \$1,382,500. Hamilton county takes the lead in the number of saloons paying in, as there are 2,002 against 2,042 last year, or a decrease of but 33. In Cuyahoga county the number paying in the tax is 1,954, while the first payment for 1905 showed 2,475, or a loss of 521. It is evident that the Auditor, however, that this payment is an experiment on the part of the saloon keepers, and the next will show as large a decrease as this, or about 20 per cent more. Summing up the whole, though, it is quite evident that the resources of the state will be greater than the disbursements, and the end of the year will show a greater increase in the balances.

The above figures are based entirely upon the returns of the assessors and not on the actual settlements. The settlements from about half a dozen counties, including Hamilton, have not been received, and Deputy Auditor Fullington is of the opinion that they will show a greater falling off than the returns of the assessors indicate, especially Hamilton county, which he believes will be in the neighborhood of 600.

Cleveland, O., July 10.—The testimony of the witnesses examined by the federal grand jury, called to investigate the charge of rebating and violation of the Valentine anti-trust law against the Standard Oil company, has not so far been of a sensational nature. It is said, however, that developments opened up a new line of procedure to the government officials, but the exact nature of it was not revealed. At the end of the session District Attorney Sullivan hastened to complete the work of issuing a large number of new subpoenas. Two of the witnesses especially desired are said to be in Chicago. Samuel Rockwell, chief engineer of the Lake Shore railroad, and Clement Shaffer, state deputy oil inspector for the Findlay district, have been subpoenaed.

M. C. Tully, auditor in the freight department of the Lake Shore road, was a witness before the grand jury. Tully gave evidence at a recent session of the interstate commerce commission here to the effect that the Lake Shore road had been giving secret rebates on storage charges to the Standard Oil company, and that the orders for this came from Vice President G. J. Grammer. It was stated that Tully's examination before the grand jury did not develop the fact to the satisfaction of the district attorney. C. A. Slauson, freight agent of the Lake Shore, and H. F. Kellogg, an independent oil dealer of Chicago, were other witnesses.

**Creamer to Stay.**  
Columbus, O., July 10.—David Creamer, fire marshal by appointment of the late Governor Pattison, will, it is believed, serve out his term. Governor Harris has not asked Attorney General Ellis for his opinion as to the power of the chief executive to remove Mr. Creamer, but will refuse to act in the matter on his own initiative, and will allow Mr. Creamer to fill the office to which he was named by Governor Pattison. This means also, so far as known now, that the office force selected by Mr. Creamer will remain during the continuance of the term of their chief.

**Mrs. McKinley's Offering.**  
Canton, O., July 10.—Mrs. William McKinley has presented to the First Methodist Episcopal church at Canton four memorial art glass windows in honor of the late president. The windows, which will cost several thousand dollars, will be of the finest glass procurable. The designs for them were made by one of the largest art glass firms in the east and are at present in the hands of the trustees of the church. The church at present has no memorial of McKinley except a small brass tablet marking the McKinley pew.

**Ohio Man Murdered.**  
Topeka, Kas., July 10.—It is the belief of the officials of the western division of the Atchison, Topeka & Santa Fe railway that Ernest Burress of Sidney, O., who was found in an unconscious condition alongside the tracks of the company near Bellefonte, Kas., on Saturday night and who died at Dodge City Sunday, was murdered. There were two gashes on Burress' head and near the scene where his body was found, there were a couple of large stones bespattered with blood. A card in the man's pocket asked that Mrs. S. G. Burress of Sidney, O., be notified in case of accident.

**Operators and Miners Meet.**  
Cleveland, July 10.—A conference between operators of the Ohio district, known as the Pittsburgh vein, and representatives of the miners' organization looking to a settlement of the strike troubles in the southeastern part of the state was begun here. Vice President T. L. Lewis of the United Mine Workers and William Greer, president of the Ohio miners' organization, are among the representatives of the miners here. The conference is the first to be held between the operators and miners since the one recently held at Wheeling at which they failed to reach an agreement.

**Hollingsworth Retires.**  
St. Clairsville, O., July 10.—Owing to ill health, Judge J. International Committee Issues an Important Address.

New York, July 10.—The international policyholders' committee, organized to overthrow the present management of the New York Life Insurance company and the Mutual Life Insurance company of New York, effected a permanent organization at a meeting here. The general committee formally added to the list of its members the names of Lord St. Oswald and Harwood Barnard, M. P., to represent the English policyholders. After the meeting the committee issued an address to policyholders explaining the inception of the committee and outlining its plan of action. Reciting that the voting power has gradually been transferred from the policyholders to a few of the executive officers centered in New York, the address says that it is necessary for the 1,200,000 policyholders to organize without delay, as this year, under the law recently enacted, affords the policyholders their only opportunity to obtain complete control in one election, while hereafter only half the directors can be chosen in any one election.
